EDUCATION

B.Tech, Computer Science Engineering	*2022 – 2026*
Rajiv Gandhi University of Knowledge Technologies, RK Valley	CGPA: 8.7
Pre-University Course (PUC)	*2020 – 2022*
Rajiv Gandhi University of Knowledge Technologies, RK Valley	CGPA: 8.9

SUMMARY

- Detail-oriented and proactive Computer Science Engineer with a strong foundation in software development, system design, and problem-solving. Skilled in Python with practical experience in building and deploying full-stack web applications using the MERN stack. Well-versed in Operating Systems, Database Management, and Object-Oriented Programming. Passionate about designing efficient, scalable systems and contributing to innovative technology solutions as a System Engineer at Infosys.

EXPERIENCE

SDE, Scihubbs *May 2025 - July 2025*

Online-Ebook Store

- Developed a real-time Online eBook Store web application enabling users to browse, purchase, and download eBooks.
- Designed and implemented user and admin dashboards for managing books, orders, and payments.
- Integrated Razorpay payment gateway for seamless and secure payment processing.
- Built features for book uploading, categorization, and digital delivery.
- Collaborated with the team to deploy and test the project ensuring smooth user experience and robust functionality.

PROJECTS

•Smart Restaurant Management System *Feb. 2024 - April. 2024*

Web Developement project Github

- Implemented Node.js and Express.js for robust server-side logic, enabling efficient table/room booking, food ordering, and real-time validations.
- Integrated JWT authentication, bcrypt password hashing, and an admin dashboard with email/SMS notifications for secure and seamless management.
- Made using: Mernstack

•E-commerce Website *Jan. 2025 - Mar. 2025*

MERN Stack Github

- Developed a scalable full-stack e-commerce platform with features for browsing, searching, and purchasing products.
- Implemented secure user authentication, product catalog management, shopping cart, and order tracking.
- Integrated payment gateway (Razorpay/Stripe) for seamless transactions and admin dashboard for inventory management.
- Made using: MERN Stack (MongoDB, Express.js, React.js, Node.js).

SKILLS

- **Programming**: Python(advanced) , C(familiar) , Java(familiar)
- **Web Technologies**: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs
- **Operating System**: Windows , Linux(Ubuntu)
- **Databases**: SQL , MongoDB
- **CS Fundamentals**: Data structures and Algorithms, OOPs concepts, Operating system
- **Tools Platforms**: Git, GitHub, VS Code, Postman
- **Other Areas**: Basics of Machine Learning, Cloud Fundamentals (AWS/Azure awareness), SDLC concepts
